GARDEN FLOOR 7F

A new memory awaits you. The Ferris Wheel will take you to a world 70 m above the ground.
 A symbolic attraction established by inheriting the dreams once provided by the Fukuda-no-Yuenci (Nagasaki Amusement Park). The 32 gondolas, which include 2 gondolas available for guests in wheelchairs, will ascend to a world 70 m above the ground. The Ferris Wheel performs a single, leisurely rotation in 10 minutes and 51 seconds, allowing you to enjoy the grand panorama of the Port of Nagasaki, Mt. Inasa, and Megami Ohashi Bridge (Venus Wing). Make a new memory with that someone special on the Ferris wheel.
